## **The Community Hope Story**

*Nearly a Quarter Century of Creating a Brighter Future*

*Our nonprofit organization was founded by families whose children had experienced severe depression, schizophrenia and other mental illnesses at an early age. Many were hospitalized repeatedly. Community Hope's establishment of nurturing homes with professional support has enabled many individuals to make the transition back to the community at their own pace.*

*Today, Community Hope is one of the largest residential programs for young adults, homeless veterans and individuals with mental illness in New Jersey. National and state awards have recognized our Hope for Veterans and other programs as models to be replicated in addressing the needs of our most vulnerable citizens.*

*This year's Dinner Auction will help us reach 300 individuals in need each day, providing them with the essentials of housing, food and daily assistance together with support services aimed at overcoming the despair of mental illness. Please support this important charity event and help us provide "A Sparkle of Hope" to someone struggling with a debilitating mental illness.*
